## **Strategies Group Named to List of 100 Technology Pacesetters for 2007**

*Based in the Southeast, Strategies Group is a top technology provider and Sage Authorized Reseller of Sage Timberline Office, Sage Master Builder, Sage CRM, and Sage Accpac ERP.*

**Suwanee, GA – January 30, 2008** – Strategies Group announced today that they have been named to the list of 100 Technology Pacesetters for 2007 as recognized by Source Media – publishers of various industry-leading accounting and technology magazines. With its corporate office in Georgia, Strategies Group provides contractors and construction companies throughout the Southeast with accounting and business software solutions including Sage Timberline Office, Sage Master Builder and Sage CRM Solutions.

Each year, thousands of accounting software resellers are considered for recognition in the top 100. Source Media selects its prestigious list of 100 Technology Pacesetters based on a variety of criteria that includes industry awards and recognition achieved throughout the year, demonstration of technology leadership, industry reputation amongst peers, sales per employee, and annual growth.

According to Craig Trussell, Vice President of Sales and Marketing at Strategies Group, "We are very proud to be recognized by the industry and by our peers as one of the top accounting software resellers and technology providers in the industry." He adds, "It's great to see our hard work pay off. We're completely dedicated to providing construction professionals with quality software and technology solutions and we are honored to be a member of such a select group of leaders in our industry."

The list of 100 Technology Pacesetters is published in a special supplement to Accounting Technology magazine's December 2007 issue.
